Featured Service

Expanded Electric Vehicle charging capacity

PYPL is now the site of three, count 'em, three electric vehicle charging stations! Owners of EVs should now be able to find these listed on the ChargePoint app, which drivers use to manage the charging process. We're happy to be able to add to the convenience with which people can make sustainable driving choices.

We're grateful to the New York State Energy Research & Development Authority (NYSERDA) for helping to make it possible to host this community resource!
